- Mentioned case in screen shot is   fixed on data entry page .

Case1: Uploaded a non PDF file, the record was not saved then replaced the file with a PDF file but still the record was not saved.

Case2: Active File enables

Case3: **Endorsement Type** is disabled until **APPLICATION STATUS** is tagged as **To be endorsed**

if uploaded file is not formatted in pdf it is not allowed to upload on database .

When application status is "to be endorse" remaining field is active .

- Once more issue is resolved .

9/24/21 Save Record and Save Edit Enabled/Disabled Function
in list To-Do (from VCC to Dev)

Description   Edit

Save Record:

-**Enabled** once the user started to input any thing in the Data Entry.
-**Disabled** once clicked by the user. This will signify that the record is already saved. Also, when editing an existing record.

Save Edit:

-**Enabled** once the user started to input any thing in the Data Entry.
-**Disabled** once clicked by the user. This will signify that the record is already saved. Also, if not editing an existing record.
